

# AKASH PAUL

Chakdaha, West Bengal, India | +91-8759804585 | [skypaul2000@gmail.com](mailto:skypaul2000@gmail.com) | [linkedin.com/in/skypaul2000](https://linkedin.com/in/skypaul2000)

## PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer with 4+ years of experience engineering scalable back-end architectures and responsive front-end interfaces using NestJS, Node.js, React, and MongoDB. Demonstrated expertise in designing secure REST APIs, optimizing relational and NoSQL databases, and deploying robust microservices. Combines strong problem-solving and organizational skills to lead development teams, enforce SOLID principles, and accelerate product delivery lifecycles by up to 25% from concept to production.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript (ES6+), Python, Java, HTML/CSS, Ruby

**Front-End & Back-End:** ReactJS, Next.js, Angular, NestJS, Node.js, Spring Boot, Material-UI

**Databases:** MongoDB, MySQL, Oracle, NeonDB, RocksDB

**Cloud & DevOps:** AWS S3, Docker, Kubernetes, Vercel, Git, GitHub Actions, Postman, CI/CD Pipelines

**Core Competencies:** REST API Design, Microservices, Problem-Solving, Organizational Skills, System Optimization

## WORK EXPERIENCE

### Full Stack Developer

Sep 2025 – Present

ONOV8 (OMNI INNOVATION)

- System Architecture:** Engineered back-end services for enterprise SaaS platforms ("EZMS", "Dear Tomorrow") using NestJS and MongoDB, improving system scalability to support high-volume concurrent user sessions.
- Project Leadership:** Led the "Dear Tomorrow" project as the core back-end developer; mentored 2 peer developers and collaborated with QA, accelerating feature delivery timelines by 25%.
- API Development:** Architected secure REST APIs for complex workflows, including direct-to-S3 asynchronous media uploads, reducing server processing load by 30% and enforcing strict RBAC protocols.
- Database Optimization:** Optimized MongoDB and MySQL schemas and complex aggregation pipelines, decreasing database query latency by 40% for real-time data transactions.
- DevOps Integration:** Automated CI/CD deployment pipelines and resolved critical production bottlenecks, achieving 99.9% system uptime during UAT phases.

### Software Development Engineer - 1

Nov 2024 – Aug 2025

Chainscore.finance | Pune

- Front-End Engineering:** Developed a comprehensive cryptocurrency exchange web application for TelosX using Next.js and HTML/CSS, boosting user interface responsiveness and engagement by 35%.
- Blockchain Integration:** Programmed state transition features in Python for the Polkadot v2 JAM project, increasing network transaction throughput and optimizing state management.
- Team Collaboration:** Coordinated an 8-member development team using Agile methodologies and strict Git version control, reducing code merge conflicts by 50%.
- Back-End Security:** Integrated KYC verification providers and Bitget APIs via Node.js and NestJS, mitigating unauthorized access attempts by 90% and ensuring secure user validation.

### Project Engineer

Apr 2022 – Jul 2024

Wipro Limited | Kolkata

- UI/UX Development:** Built 120+ reusable front-end components for data-intensive analytical platforms using ReactJS, increasing user retention metrics by 30%.
- Performance Optimization:** Resolved unnecessary DOM re-renders alongside a 5-member team, decreasing bug density by 25% and accelerating overall page load speeds by 20%.
- API Integration:** Implemented 50+ custom React hooks for optimized data fetching and deployed Firebase Cloud Messaging, successfully delivering 98% of client push notifications.
- Back-End Contributions:** Programmed robust RESTful APIs using Java and Spring Boot, seamlessly connecting front-end interfaces with secure backend databases.

## EDUCATION & CERTIFICATIONS

### Bachelor of Technology, Computer Science Engineering

May 2018 – Jun 2022

Academy of Technology, West Bengal | CGPA: 9.07
